Reduce height of navbar AND reduce height of “Welcome Clyde ...”. These are taking up too much valuable space.

The screenshot shows the Market Martial web interface. At the top is a dark blue navbar with the Market Martial logo and navigation links: Trade, Stats, Previous day, More, and Logout. Below the navbar is a light gray header area containing the welcome message "Welcome Clyde Bowes (zcxzc)", the time "07:16 PM", and the rebates "Rebates: R65k". A row of four colored buttons (blue, dark blue, red, orange) follows: "Request a Market", "Important 4", "Alerts 1", and "Confirmations 1". To the right of these buttons are links for "Markets" and a chat icon. The main content area is divided into three columns: "TOP 40", "DTOP", and "SINGLES". Each column displays market data for specific dates (Mar 18, Mar 17, Mar 20) with values and spreads. A red arrow points to a "REQUEST" button in the DTOP column, with a note: "Here's an example of smaller market tab sizes even on a big screen." At the bottom right, it says "Active Market Makers Online: 7".

Here's an example of smaller market tab sizes even on a big screen.

Active Market Makers Online: 7

Reduce market tab sizes – both width and height (include a max-width property so they don't stretch across the screen). Make tabs as small as you can. Importantly, **all** market tabs need to be the same height. So you need to design a market tab to fit the largest structure (Risky & Calendar).

These markets should ALWAYS appear in this order, regardless of the order you click on the market buttons on the right. (and just to be clear, when you click Index, then it will show TOP40, DTOP, and DCAP. But like the description below the button states, DCAP and DTOP will only be displayed when markets are requested).

Remove “Set current as my default”. We are assuming this will happen automatically.

A screenshot of a settings dialog box. It contains a list of items: TOP 40, DTOP, DCAP, SINGLES, and Roll. Each item has a 'Remove' button to its right. Below the list is a checkbox labeled 'Set current as my default' with the text 'DCap and Dtop: Only displayed when markets are requested' above it. At the bottom are 'OK' and 'Cancel' buttons. Red annotations highlight the 'Set current as my default' checkbox and the 'Cancel' button.
